

reimbursements to the hospital are processed, and that processing time could carry it over into the '95-96 fiscal year. But the overall impact is no different than what you've understood from the beginning. It is just merely recognition of the cash flow process that, in fact, will occur. So with that, I'd move the bill be advanced.

SPEAKER BAACK: Thank you, Senator Warner. Any discussion on the advancement of LB 815A? Seeing none, we will now vote on the advancement. All those in favor vote aye, opposed vote no. Have you all voted on the advancement of LB 815A? Have you all voted? Record, Mr. Clerk.

CLERK: 25 ayes, 0 nays, Mr. President, on the advancement of LB 815A.

SPEAKER BAACK: LB 815A advances. We will go to LB 816A.

CLERK: LB 816A offered by Senator Wesely. (Read title.)

SPEAKER BAACK: Senator Wesely.

SENATOR WESELY: Yes, Mr. Speaker, members, LB 816 is the bill dealing with managed care. We do set up a Managed Care Commission to carry out that process. We do cover the expenses for that commission and the total cost is something over \$5,000, so it is a very small amount. With that, I'd ask for advancement of the bill.

SPEAKER BAACK: Thank you, Senator Wesely. Discussion, Senator Robinson.

SENATOR ROBINSON: Mr. Speaker, members of the Legislature, Senator Wesely, I have a question. It really doesn't directly refer to the A bill. What does the managed care, when do we implement that?

SENATOR WESELY: That is a very good question. We are hoping to have managed care to some degree in operation sometime next spring, but with the hospital lawsuit that we have, we can't require a hospital's participation in a managed care plan specifically until July 1 of '95, in two years. So we are somewhat restricted in what we can do, and the hope is to proceed as rapidly as we can, but there are certain barriers in place.
